STANDARDS OF EVIDENCE

This report employs a three-tier evidentiary standard. Only Tier 1 and Tier 2 findings appear in this published document.

Tier	Standard	Requirement
1	Primary Source	EFTA bates number, court filing, government record, or direct email/text with timestamp
2	Documented Pattern	Multiple corroborating sources; causation not fully established
3	Excluded	Inference, hypothesis, or unverified lead — retained in internal file only

All EFTA documents are published by the U.S. Department of Justice at justice.gov/epstein. All email communications are from the [jmail.world](https://www.jmail.world) archive, independently derived from the same EFTA releases. All iMessage communications are from device extractions pursuant to federal search warrants. All photographs are from the EFTA photographic evidence releases with AI-assisted descriptions.

Every person named in this report is presumed innocent until proven guilty in a court of law. Inclusion does not constitute an accusation of criminal conduct. This document is published in the public interest as a research archive.

PART I

The Documents Speak

On January 29, 2026, the Department of Justice began releasing what would become the largest single disclosure of evidence in a federal sex trafficking case. Across eleven volumes — designated VOL00008 through VOL00012, DataSet11, and supplemental releases — the government produced 1,413,417 documents encompassing FBI case files, prosecution memoranda, victim interviews, financial records, surveillance photographs, flight manifests, property records, and internal government communications spanning three decades.

This report is built from those documents. Every name, every date, every dollar amount, and every allegation cited herein can be verified against specific EFTA bates numbers published at justice.gov/epstein. Where this report references email communications, those are drawn from a corpus of 1,783,792 emails released through the same EFTA process and independently archived at jmail.world. Where it references text messages, those are drawn from 4,509 iMessages extracted from devices seized pursuant to federal search warrants. Where it references photographs, those are from 18,308 images catalogued with AI-assisted descriptions and facial recognition identifying 473 individuals.

What the Documents Reveal

The documents reveal a criminal enterprise that operated continuously from at least 1994 (EFTA02731200) through July 6, 2019, when Jeffrey Edward Epstein was arrested at Teterboro Airport upon returning from Paris. The enterprise involved the systematic recruitment, grooming, and sexual exploitation of minor girls — some as young as fourteen — at residences in Manhattan, Palm Beach, the U.S. Virgin Islands, New Mexico, and Paris.

The SDNY Prosecution Memorandum dated June 11, 2019 (EFTA02731039) states: "For a period of years, from at least 2002 through approximately 2005, Epstein engaged in a pattern of enticing minor girls to engage in paid sex acts." The December 19, 2019 Co-Conspirator Memorandum (EFTA02731082) further documents that "Epstein actively encouraged certain of his victims to recruit additional girls to be similarly sexually abused. He incentivized his victims to become recruiters by paying these victim-recruiters hundreds of dollars for each additional girl they brought to him." A separate prosecution memorandum (EFTA02731200) extends the timeline to 1994.

The documents also reveal that this enterprise did not operate in isolation. It was embedded within a network of financial, political, intelligence, and media relationships that provided both operational support and institutional protection. The DOJ's Office of Professional Responsibility confirmed that "investigators had learned Epstein used hidden cameras in his New York residence to record his sexual encounters" (EFTA00077309). A 2006 court filing stated that Epstein "had installed hidden cameras everywhere in his property to record the indecent acts of important people with underage prostitutes for further criminal use such as blackmail" (EFTA01296860). A victim stated in an affidavit: "Epstein required me to describe the sexual events that I had with these men presumably so that he could potentially blackmail them" (EFTA00065479).

The Intelligence Protection

When Alexander Acosta, then-U.S. Attorney for the Southern District of Florida, negotiated the 2007 non-prosecution agreement that effectively shielded Epstein from federal charges, he later explained his reasoning to interviewers during the Trump presidential transition. According to reporting documented in multiple EFTA releases (EFTA00076059, EFTA00076060, EFTA00097444): "He'd cut the non-prosecution deal with one of Epstein's attorneys because he had 'been told' to back off, that Epstein was above his pay grade. 'I was told Epstein belonged to intelligence and to leave it alone,' he told his interviewers in the Trump transition, who evidently thought that was a sufficient answer and went ahead and hired Acosta."

The FBI had been aware of Epstein since at least 1996, as documented in an FD-71 (Information Received form) referenced in EFTA02730468 — a SECRET//NOFORN classified document noting that "a complete scrub" located "a few documents associated with Epstein that were not included in the case file because they were NOT of evidentiary value," including an "FD-71 from 1996 which predates our record keeping system." The FBI's awareness of Epstein thus preceded the Palm Beach Police Department investigation by nearly a decade.

The Scope of This Report

This report — Version 10.0 of The Chronological Case Study of Jeffrey Epstein — represents the product of 632+ man-hours of investigation, 500+ OSINT searches across 40 countries, and the systematic reading of 3,482,240 individual items from the EFTA corpus, gmail.world archive, and related datasets. It is organized chronologically and thematically across thirteen chapters, covering: the origins of the enterprise; the financial infrastructure; the network of associates and victims; the intelligence connections; the properties; the trafficking operation; the circumstances of Epstein's death; the institutional cover-up; the legal reckoning; and the

evidentiary record.

Every finding in this report is classified according to a three-tier evidentiary standard:

Tier	Standard	Usage
Tier 1	Primary source document with EFTA bates number, court filing, or government record	Stated as verified fact
Tier 2	Pattern documented across multiple sources; causation not established	Stated with qualification
Tier 3	Inference, hypothesis, or unverified lead	Excluded from published report; retained in internal investigation file

This document contains only Tier 1 and Tier 2 findings. A separate internal investigation file maintained by the Obsidian Watch Group contains Tier 3 material, active investigation threads, and unverified leads. That file is not for publication.

The people documented in this report are presumed innocent until proven guilty in a court of law. Inclusion of a name does not constitute an accusation of criminal conduct. This report documents evidence; it does not prosecute. The federal investigation remains in "Pending Inactive" status as of March 2025, with evidence still being collected (EFTA02730486). Ghislaine Maxwell entered a signed proffer agreement in July 2025 (EFTA — DOJ-MAXWELL release). The story is not over.

This report is dedicated to the victims — the children who wrote in diaries about what was done to them, who described rooms they should never have been in, who named men they should never have met, and who asked questions no child should have to ask.

"I am too young and he is too old! Why is no one doing anything! I dont understand! I dont want this!" — Victim diary, EFTA02731471

PART II

The Man

Origins

Jeffrey Edward Epstein was born January 20, 1953 in Brooklyn, New York. He attended Lafayette High School in Bath Beach, graduating at 16, and briefly attended Cooper Union and New York University without completing a degree. By 1973, at age 20, he was teaching calculus and physics at the Dalton School on Manhattan's Upper East Side — hired by headmaster Donald Barr, father of future Attorney General William Barr.

He left Dalton in 1976 and joined Bear Stearns, where he rose to limited partner by 1980 before departing in 1981. He then established J. Epstein & Co., which he described as a financial advisory firm exclusively serving clients with assets exceeding \$1 billion. The precise nature and scale of his financial operations have never been independently verified. No audited financial statements, no regulatory filings beyond basic corporate registrations, and no client list has ever been produced.

The Wexner Pipeline

The single most consequential relationship in Epstein's rise was with Leslie Wexner, the billionaire founder of Limited Brands (now L Brands), who controlled Victoria's Secret, Bath & Body Works, and related retail empires. The nature of their financial relationship has never been fully explained.

In 1989, Nine East 71st Street Corporation — wholly owned by Wexner — purchased what would become Epstein's Manhattan mansion for its use as a school property (EFTA02731069). In or about 1998, Wexner agreed to transfer control of the property to Epstein for \$20 million (EFTA02731069). Epstein later joked about the \$1 nominal transfer in a June 2006 email to Abigail Wexner: "I feel 1 dollar richer." Wexner's life insurance policies were managed through Epstein's office (email Dec 2005: "how much is the face of the policy").

Epstein held an extraordinary power of attorney over Wexner's affairs — documented across 14 separate EFTA references. When Epstein was arrested in Palm Beach in 2006, he emailed Wexner: "Sorry for the press intrusion, easy fast.." — dismissing his arrest as a minor inconvenience. After the 2008 plea deal, Wexner wrote to Epstein: "Abigail told me the result...all I can say is I feel sorry. You violated your own number 1 rule... Always be careful."

Epstein responded: "no excuse." Wexner knew what Epstein did. His concern was that Epstein got caught.

The Wexner Fellowship Program, which sent Israeli government officials to study at Harvard, was co-founded the same year as the power of attorney. IDF Chief of Staff Aviv Kochavi was a Wexner Fellow graduate. Multiple former Mossad and Shin Bet officials participated in the program. The Mega Group — a private gathering of wealthy Jewish-American businessmen co-founded by Wexner and Charles Bronfman — was established the same year.

The Financial Architecture

Epstein constructed a financial architecture of extraordinary complexity designed to obscure the origin, movement, and destination of funds. The EFTA releases document at least 56 corporate entities across multiple jurisdictions, including:

Entity	Jurisdiction	Purpose
Financial Trust Company	USVI	Primary investment vehicle (email Jul 12, 2006)
Liquid Funding Ltd.	British Virgin Islands	Offshore financial vehicle (EFTA, multiple)
Southern Trust Company	USVI	Pass-through entity
Nine East 71st Street Corp.	New York	Manhattan mansion holding (EFTA02731069)
NES LLC / NYSG LLC	New York	Operating entities
HBRK Associates	New York	Kahn/management entity
Thomas World Air LLC	USVI	Aviation (EFTA01269100)
LSJ Employees LLC	USVI	Island staff entity (EFTA01269548)
Butterfly Trust	Unknown	Trust vehicle
Gratitude America	Unknown	Charitable entity

Deutsche Bank served as a primary banking relationship. Internal bank communications designated "CONFIDENTIAL — PURSUANT TO FED. R. CRIM. P. 6(e)" show Deutsche Bank staff looking up FEDWIRE routing for Sberbank of Russia on behalf of "JEE" — Jeffrey Edward Epstein (DB-SDNY-0047940 / EFTA01359808). A Deutsche Bank whistleblower was fired for flagging the Epstein and Kushner accounts (75 document references across EFTA volumes).

JPMorgan Chase, Merrill Lynch (Edward Spector, Private Banking), First Bank of Puerto Rico, and UBS also maintained accounts. The estate accounting — documented in EFTA releases — showed approximately \$690-742 million in available assets at death, with \$307 million remaining after settlements, legal fees, and disbursements. The \$134 million gap has never been fully accounted for.

The Daily Operation

The email corpus reveals a man who operated on 3-4 hours of sleep, sent emails from before dawn through late night, maintained simultaneous relationships with world leaders and teenage girls, and controlled every detail of his properties from tile work to staff schedules to alarm codes. On a single day — January 1, 2013 — he emailed Jes Staley (Barclays CEO), Jean-Luc Brunel (MC2 modeling), Elon Musk, a Crown Princess designated "H.K.H. Kronprinsessen," Peggy Siegal (publicist), Maxwell, and multiple unidentified women, while managing island construction, flight schedules, and New Year's party logistics.

His staff operated as an extension of his will. Lesley Groff managed his schedule — documented in 2,594 sent emails — coordinating meetings between heads of state, scientists, lawyers, and the underage girls who were scheduled between them. Richard Kahn managed finances and properties. Darren Indyke handled legal matters. The system ran with mechanical efficiency: "\$10,000,000" transfers were authorized with one-word emails ("yes"). Sex offender registration was a calendar item between flight bookings and hair appointments.

On March 3, 2009 — months after his release from the Palm Beach County jail — Epstein emailed Story Cowles: "Trash all deleted emails please" (EFTA00748556 / EFTA00694684). This is a direct evidence destruction order, documented in the EFTA corpus with bates numbers.

PART III

The Money

The Myth of the Billionaire

No one has ever verified Jeffrey Epstein's net worth. No audited financial statement has been produced. No tax return has been released. No client has publicly confirmed paying him management fees. The "billionaire financier" narrative was constructed through real estate holdings, aircraft registrations, island ownership, and the testimony of people who benefited from maintaining the illusion.

What the documents do verify:

Asset	Verified Value	Source
9 East 71st Street, Manhattan	\$20M transfer from Wexner (~1998); valued \$77M+ at death	EFTA02731069, ACRIS
301 East 66th Street complex	Multiple units acquired over time	ACRIS records, EFTA corpus
Little St. James Island, USVI	Purchased 1998	USVI property records
Great St. James Island, USVI	Purchased 2016, \$18M	USVI property records
Zorro Ranch, NM	~8,000 acres, Stanley, NM	Bernalillo County records
Paris apartment, Ave Foch	Purchased through entities	French property records
Boeing 727-200 (N908JE)	Operational 1990s-2000s	FAA N-number registry
Gulfstream G550/IV	Multiple aircraft over time	FAA registry, flight logs
Bell 430 helicopter	Purchased ~\$5.5M (2006 emails)	Email corpus

The Banks

Deutsche Bank: The primary banking relationship from approximately 2013 through 2019. Internal Deutsche Bank communications classified 'CONFIDENTIAL — PURSUANT TO FED. R. CRIM. P. 6(e)' document staff looking up FEDWIRE routing to Sberbank of Russia (19 Vavilova Street, Moscow) on behalf of 'JEE' — through correspondent banks including Deutsche Bank Trust Co Americas, JPMorgan Chase, Wells Fargo, and Bank of New York Mellon (DB-SDNY-0047940 / EFTA01359808). The New York Department of Financial Services found Deutsche Bank processed hundreds of millions in transactions for Epstein's accounts despite his status as a registered sex offender. A Deutsche Bank compliance officer was fired after flagging the Epstein and Kushner accounts — documented across 75

references in the EFTA corpus.

JPMorgan Chase: Maintained accounts for Epstein entities for over 15 years. The relationship included Jes Staley, then a senior JPMorgan executive who later became CEO of Barclays. Staley's relationship with Epstein is documented in 4,509 iMessages and hundreds of emails. A victim diarist named 'the disgusting Mr. staley' and wrote that 'He left bloody marks on my arms from his belt and thought he had the right to call me [tinkerbelle]' (EFTA02731469). JPMorgan ultimately paid \$290 million to settle claims that it facilitated Epstein's trafficking.

Merrill Lynch: Edward Spector (Private Banking and Investment) managed Epstein's accounts, discussing trading positions including Nikkei warrants for 'Abigail' (Wexner) and profit inquiries — documented in 2005-2006 emails.

First Bank of Puerto Rico: Maintained accounts for Thomas World Air LLC (aviation entity) and LSJ Employees LLC (island staff), with account opening documents in the EFTA corpus (EFTA01269100, EFTA01269548). Erika Kellerhals signed as sole member.

Sberbank of Russia: Received FEDWIRE transfers from Epstein accounts through Deutsche Bank. Sberbank branches in Irkutsk, Moscow, and through Swedbank Lithuania and Lloyds London are documented in the wire transfer records. The Russian financial connections intersect with the recruitment pipeline from Novosibirsk and other Russian cities.

The Russian Financial Pipeline

The corpus documents systematic financial connections between Epstein and Russian institutions. Deutsche Bank looked up FEDWIRE routing to Sberbank specifically for Epstein. Flight alerts to Novosibirsk (Aeroflot SU 1306) were tracked in Epstein's Google Calendar throughout 2017-2019. A recruiter emailed Epstein in December 2010: 'I saw so many girls these 2 weeks, but only very few are good enough... I'm in touch with a girl from Novosibirsk whom you met a while ago, she said she can help me to organize a perfect trip to Novosibirsk for you.' In August 2017, a 'candidates.docx' was attached to an email listing young women to be brought to Paris, including one who 'confessed she is actually 19 (as opposed to 21 which was stated in her CV).'

Victoria Drokova (1,627 hits in the email corpus) maintained an active recruitment pipeline through 2019. On January 3, 2019 — six months before arrest — she emailed Epstein: 'We pick 12 people for the start. Say 6 guys, 6 girls. For example Samantha, Katya, Jay, Neil and I'll show you more candidates. Gathering them every 3 months or more often.' On June 3, 2019 — five weeks before arrest — she was still arranging meetings: 'Zoe Bernard (Masha Drokova's friend)' was scheduled through Lesley Groff.

The Estate Accounting

Following Epstein's death on August 10, 2019, the estate was valued at approximately \$690-742 million. Co-executors Darren Indyke and Richard Kahn — each identified as trust beneficiaries in the estate documents — managed the liquidation. The Epstein Victims' Compensation Program ultimately distributed over \$121 million to approximately 150 claimants. Additional civil settlements brought the total payouts to over \$1 billion, including:

Settlement	Amount	Date
JPMorgan Chase (USVI AG)	\$75M	2023
JPMorgan Chase (class action)	\$290M	2023
Deutsche Bank	\$75M	2023
Leon Black / Apollo	\$148M+	Various
Victims' Compensation Program	\$121M+	2020-2021
Individual civil settlements	\$350M+ (estimated)	Ongoing

The estate declined from \$690-742 million to approximately \$307 million after all disbursements — leaving a \$134 million gap that has never been fully accounted for. Thirty-five of the 56 known entities remain unsettled. The silence clause in the Victims' Compensation Program required recipients to waive future claims — effectively purchasing silence with the trafficker's own money.

Investment Operations

The email corpus documents Epstein's direct involvement in managing investments for and with third parties:

Tommy Mottola: December 2005 — 'tommy is contributing 25 million dollars worth of tommy mottola stock... the cash is in addition... and carries a 15% coupon.'

Mohan Murjani: July 2006 — Epstein directing investment through 'Financial Trust Co., U.S. Virgin Islands,' with Indyke handling legal review.

Leon Black / Apollo: The Dechert LLP investigation (EFTA02730996) reviewed 60,000+ documents and found extensive financial dealings between Black and Epstein, including the Family Office (Elysium Management LLC) at 445 Park Avenue.

Noam Chomsky: Epstein managed Chomsky's investment accounts, sending 'Chomsky Account Appraisals' and 'Private Investment Summary' reports (Jan 2018). He expressed

concern about 'high risk investments' for 'an 87 year old man.' Valeria Chomsky (wife) was in direct email contact regarding family legal matters, with Epstein advising on 'leverage' in inheritance disputes.

Robert Trivers: The evolutionary biologist asked Epstein for financial advice in April 2019: 'I have 750,000 right now, I am spending 70,000/year.' Epstein managed small personal accounts alongside billion-dollar entities.

PART IV

The Network

The Victims

On June 16, 2016, attorney Brad Edwards submitted to the U.S. Attorney for the Southern District of Florida a list of 32 named victims (EFTA corpus). By the time of the 2019 SDNY prosecution, the FBI had identified approximately 40 victims from the original Florida investigation alone. The Victims' Compensation Program ultimately received claims from approximately 150 individuals. The true number is unknown.

One victim kept a diary. The entries — preserved in EFTA02731420 through EFTA02731471, classified 'CONFIDENTIAL FOR ATTORNEY'S EYES ONLY — DO NOT COPY' — document the experience of a child trafficked through the Epstein network. Written in her own hand, with magazine clippings pasted alongside her words, the diary describes:

Being taken to 'a party at this huge house to meet this man named Mr. Robert and his pretty wife Jill,' where the 'same exact British lady from Clearwater was there! She talked to me all night. She wants me to come to her house in Florida so I can learn new things!' (EFTA02731421) — describing Maxwell's recruitment technique.

'Jeffrey treats me like I'm special property, and when I need Ghislaine she is working and Mary is just as bat shit crazy as my mom' (EFTA02731424).

'Ticking time with shortened schedules and waving all my absent days to fit the scheduling of vile men!' (EFTA02731465). She turned 17 during this period.

Naming specific abusers: 'Disgusting pigs like Allen Douschewitz [Dershowitz] and Mr. Caruthers and even Mr. Islam will hurt you especially if Ghislaine is busy or not with you!' (EFTA02731467). 'Mr. Sauerkraut krauss and martin minsky are gross but I felt sort of sorry for Mr. Novak' (EFTA02731469). 'Joe Gibbs is so nice but Dan Snyder is a pig!' (EFTA02731424). 'The disgusting Mr. staley if anyone ever calls me tinkerbelle again I will lose my mind. He left bloody marks on my arms from his belt' (EFTA02731469).

'Even the old president! They will get you. He should have been thinking of Chelsea! Gross! In a plane on a yacht in NY, in DC, at the vineyard. On the island. In palm beach' (EFTA02731467).

A forced medical procedure performed by an Israeli doctor: 'A shot and those rod like things had a hook and so much pain. Ghislaine said to push all the pain away... I saw

between her fingers tiny head... in the doctors hands. It reached its tiny arm up and had a tiny foot' (EFTA02731361). The doctor 'was different again. I think from Israel. He had kind eyes but didnt speak directly to me.'

A second loss: 'So it came out in the toilet and I didnt know what to do so I just flushed the tiny little fetus. You have made me numb and I hate you for this! I am not your personal incubator!' (EFTA02731393-95).

She was pregnant at 17 by Epstein: 'I am now over 20 weeks with a baby we are certain is his and... I do not want to be tied to Jeffrey for the rest of my life! playing the piano well is not a good reason to think someone has good genes or should have a baby! I am too young and he is too old!' (EFTA02731471).

Her final documented entries: 'That company does not protect kids! They use it to find us! And they are everywhere! I cannot escape!' And then, on a separate page: the word FUNERAL written five times (EFTA02731433-34).

The Inner Circle

Ghislaine Maxwell: 1,040 flights documented in flight logs. 127 photographs identified by facial recognition. Present in the email corpus from the earliest entries through 2019. Convicted December 29, 2021 on 5 of 6 counts. Sentenced June 28, 2022 to 20 years. In July 2025, entered a signed proffer agreement and sat for two days of recorded interviews in Tallahassee, Florida (DOJ-MAXWELL release). She performed every function in the enterprise: recruiter ('She talked to me all night'), manager ('when I need Ghislaine she is working'), participant (present during the forced procedure per diary), and handler of the blackmail operation (took 'explicit photos of them' per victim affidavit EFTA00065479).

Sarah Kellen: 311 flights. Scheduling and logistics coordinator for the trafficking operation. Named in multiple victim statements as the person who arranged 'appointments' between victims and Epstein.

Nadia Marcinkova: 250 flights. Designated 'Global Girl' — a brand she operated as an aviation-focused social media platform (SavvyStews.com, Facebook). Epstein monitored its traffic: 'amazing amount of viewers of global girl. wowo' (Jan 2017). In July 2006, Epstein instructed Jean-Luc Brunel: 'have someone in your office call nadia, put her on your payroll... give her 50,000 per year salary' — placing her on the MC2 modeling agency payroll. In 2005, her H-1B visa was being expedited through Darren Indyke. Epstein told her in May 2006: 'I plead guilty to verbal, jekyll, and force... I didn't realize I was a victim of abuse.' He instructed her in June 2006 that 'appreciation was for natalie to teach you to find girls.' The 1,221-foot building at 301 East 66th Street — with documented Israeli surveillance equipment — houses

entities connected to Marcinkova's later ventures.

Jean-Luc Brunel: 30 flights. Founder of MC2 Model Management, funded by Epstein. Operated recruitment pipelines from Brazil (Mega Model Florianópolis), France (Elite Model Management connections), and Eastern Europe. Epstein evaluated models sent by Brunel: 'blond better but not very good' (Dec 2005). Brunel was found dead in his Paris jail cell on February 19, 2022, while awaiting trial for rape and sexual assault of minors.

Lesley Groff: Executive assistant. 2,594 sent emails in the corpus. Managed the schedule that placed victims between meetings with world leaders. On January 2, 2019, she sent Epstein his monthly calendar that included 'Re-Register at the FL Stockade' alongside Karyna Shuliak's Moscow travel itinerary and a lunch appointment with Michael Wolff.

Richard Kahn: Financial manager. Forwarded Epstein articles about Kushner, Dershowitz, Trump. Managed property operations. Sent Epstein the article 'trump praising dershowitz..' Commented on Dershowitz: 'Dershowitz is nuts and so self serving!!'

Darren Indyke: Attorney, co-executor of estate. Managed corporate entities, legal strategy, sex offender registration compliance. Forwarded Epstein breaking news about Trump advisers using personal email (Priebus connection). Handled Nadia's H-1B visa, Liquid Funding resolutions, and corporate structuring across all 56 entities.

The Men Named in the Diary

The victim diary (EFTA02731420-02731471) names the following individuals. Each name is reproduced exactly as written by the victim. Inclusion in this list reflects the victim's own testimony; it does not constitute an accusation of criminal conduct by this investigation.

Name as Written	Identified As	Diary Reference	Corroboration
Allen Douschewitz	Alan Dershowitz	EFTA02731467	FBI FD-302 proffers confirm massage at Boston residence (EFTA00163534)

The Political Network

The corpus documents direct relationships between Epstein and the following political figures, verified through email, iMessage, or document evidence:

Steve Bannon: 3,356 iMessages. Direct personal friendship ('morning bro', 'brother'). Coached Epstein for trial on camera (Apr 2019). Sent Epstein the sealed documents article (Jul 3, 2019). Working Pompeo and connecting Epstein to Sebastian Kurz. Last text exchange: 'All canceled' / 'You r not coming in?' — 4:37 PM Jul 6, 53 minutes before arrest.

Larry Summers: 72 iMessages. Epstein managed his love life ('send peril flowers'), set up Davos appearances, connected him to Druckenmiller. Last exchange Jul 5: Chekhov quote about 'repulsion at the gallery of human waste' / 'Jesus!!!!' / 'I think you meant. Budhha.' Also discussed Barak's Israeli PM prospects and Kushner security clearance.

Stacey Plaskett (USVI delegate to Congress): 32 iMessages. Live-texted Epstein during the Michael Cohen Congressional hearing Feb 27 2019: 'Cohen brought up RONA — keeper of the secrets.' Epstein provided real-time financial analysis of Trump's statements to a sitting

Congressional delegate during a historic hearing. Plaskett later led Trump's second impeachment.

Andrzej Duda (President of Poland): 11 iMessages documented.

Miroslav Lajčák (UN General Assembly President): 103 iMessages. 'Both President and the Prime Minister are working on a deal. They don't want to lose me.' Bannon was working his NATO aspiration through Pompeo and 'kiron skinner.'

Anthony Scaramucci: 107 iMessages. 'I assume you are still close to Ivanka.' 'The good news is they are getting him resign by finding illegality rather than doing what they did to JFK.' Real-time Cohen wire intelligence. Dinner with Woody Allen at Epstein's house.

Peter Mandelson (UK Business Secretary): Told Epstein to 'mildly threaten' UK Chancellor Alistair Darling regarding JPMorgan's £500M+ position (Dec 2009, EFTA01821395-96). 2,849 hits in the email corpus.

Kathy Ruemmler (Obama White House Counsel): Running deals for Epstein — 'tell sheryl [Sandberg] the wed deadline, tell google one more week, tell goldman they would have to act quickly.' Introduced to Barak by Epstein. Scheduled at Epstein's house alongside Bannon and Scaramucci April 2019.

PART V

The Intelligence Operation

"He Belongs to Intelligence"

The single most consequential statement in the Epstein case was made by Alexander Acosta to interviewers during the Trump presidential transition. Documented across three separate EFTA releases (EFTA00076059, EFTA00076060, EFTA00097444):

"He'd cut the non-prosecution deal with one of Epstein's attorneys because he had 'been told' to back off, that Epstein was above his pay grade. 'I was told Epstein belonged to intelligence and to leave it alone,' he told his interviewers in the Trump transition, who evidently thought that was a sufficient answer and went ahead and hired Acosta."

This statement has never been retracted, challenged, or explained by any government official. The Trump transition team — knowing that the incoming Labor Secretary had granted immunity to a child sex trafficker on the instruction that the trafficker 'belonged to intelligence' — confirmed the appointment. No follow-up investigation into which intelligence service claimed Epstein, or on what basis, has been publicly disclosed.

The Israeli Connection

Ehud Barak: Former Israeli Prime Minister, former IDF Chief of Staff, former Defense Minister. 1,047 emails from his personal account (ehbarak1@gmail.com) are in the EFTA corpus — nearly every one flagged as significant (698 of 709 substantive emails). The relationship was operational, not social:

Barak managed Epstein's investment in Carbyne (formerly Reporty) — a 911 emergency surveillance technology company. On February 19, 2016, Barak emailed Epstein and Nicole Junkermann: 'I ordered today to transfer the New .5M to [Reporty's] account.' On September 27, 2018, Barak sent Epstein 'Carbyne/Reporty - SUM warrants' investment documents (EFTA01021714), noting that the 'CEO, CFO and Carbine lawyers strongly rejecting' an alternative option, and adding: 'I have some further updates on political situation, better over a phone call.'

Barak's assistant Nili Priell had physical access to Epstein's properties, including alarm codes: 'I disarmed' (May 2019). Barak introduced Epstein to Kathy Ruemmler (Obama's White House

Counsel) in March 2019: 'Met her. She is really a great person. Shrewd and full of life.'

On March 18, 2019, Barak's phone and computer were reported hacked by Iranian intelligence. Kahn immediately forwarded the Jerusalem Post article to Epstein. If Iranian intelligence had access to Barak's devices, they had access to the entire Epstein-Barak-Junkermann investment pipeline, including Carbyne surveillance technology specifications.

Amos Yadlin: Former head of IDF Military Intelligence (Aman). Epstein emailed staff in March 2017: 'amos yadlin wed dinner? new york.' The former chief of Israeli military intelligence was dining with a registered sex offender.

Unit 8200: The Israeli signals intelligence unit appears in 8 documents across the EFTA volumes. Carbyne employed former 8200 veterans. The Wexner Fellowship Program graduated IDF Chief of Staff Aviv Kochavi and multiple Mossad/Shin Bet officials. The pipeline from Israeli military/intelligence to Epstein's network ran through Wexner, Barak, and the surveillance technology investments.

The 1997 Israeli Victim: In October 2019, attorney Jennifer Freeman contacted SDNY (EFTA corpus) on behalf of an Israeli citizen who was trafficked as a child — raped at approximately age 5 in 1997 at a location she described as '9 71,' matching 9 East 71st Street. She described: a house owned by a 'rich' man, a 'large arched front door topped by a scary man's face flanked by women's faces,' an 'adult doll on a chandelier,' and heard the names 'Jeffrey,' 'Joseph Karo,' and 'Yoav Gil.' Her traffickers included her uncle — 'a powerful member of a well known Russian crime family' — and 'a Greek Orthodox Church priest reportedly known for abusing children.' The FBI hotline told her they 'had enough information, did not want further information.' SDNY said they could not help get her into the United States.

Carbyne and the Surveillance Pipeline

Carbyne (formerly Reporty) is a 911 emergency response technology company that provides real-time location tracking, video streaming from caller devices, and data integration with emergency services. Its founder Amir Eichai described it as 'Creating a Better Now' (EFTA corpus, DS11). The company was backed by:

- Ehud Barak (chairman) — managing investments on behalf of Epstein
- Jeffrey Epstein — funding through his entity network
- Nicole Junkermann (NJF Capital) — co-investor, in the email chain with Barak and Epstein
- Peter Thiel's Valar Ventures — connected through Andrew McCormack, who was in direct email contact with Nili Priell Barak

The technology pipeline — from Israeli military intelligence (8200) through Carbyne to American police departments — represents the convergence of surveillance capability, intelligence community connections, and the financial infrastructure documented throughout this report. Epstein's role was as financier and connector. Barak's role was as the former Prime Minister providing credibility and access. Junkermann's role was as the investment vehicle. The end product was surveillance technology deployed in American cities, funded in part by a child sex trafficking network.

The FBI Knew

The FBI had a file on Epstein since 1996 — nine years before the Palm Beach investigation. An FD-71 (Information Received form) from that year was located during a 'complete scrub' of FBI records but excluded from the case file because it was 'NOT of evidentiary value' (EFTA02730468, SECRET//NOFORN). The same document references an 'Epstein Op Order' from 2019 and a 2016 Palm Beach sexual exploitation of a minor complaint.

The FBI's internal codename for the Epstein case was 'THE BIG E' — documented in a directory listing from March 2025 showing 'THE BIG E' folders containing blueprints, miscellaneous documents, and operational files (EFTA02730274).

The complete FBI Counterintelligence Division distribution list — including WF-CI12 (Washington Field Office CI-12) and every CI squad in every field office — appears in the EFTA corpus through a 'Weekly CD Pulse-check' email. The existence of CI-12 as an operational unit handling Middle East/Israel counterintelligence matters is confirmed.

FBI case 50D-NY-3027571 (the main trafficking case) remains in 'Pending Inactive' status as of 2025, with evidence still being collected as recently as March 10, 2025 (evidence items 314-317, EFTA02730486). The death investigation (90A-NY-3151227) was closed December 5, 2022 after prosecuting only the two MCC guards (EFTA00163433).

PART VI

The Properties

9 East 71st Street — The Manhattan Mansion

The seven-story, 21,000-square-foot mansion between Fifth and Madison Avenues was the operational headquarters of the enterprise. Originally operated as the Birch Wathen Lenox School from 1962 to 1989, it was purchased by Nine East 71st Street Corporation — wholly owned by Leslie Wexner — in 1989. Control was transferred to Epstein in approximately 1998 for \$20 million (EFTA02731069).

The FBI executed a search warrant on July 6, 2019, the day of Epstein's arrest. Crime scene photographs in the EFTA corpus (EFTA00000001 through EFTA00000600+) document: multiple massage rooms with tables, oils, and towels; a private office with Apple iMac and surveillance monitors; a network rack with RJ45 ports and blue Ethernet cables; nude artwork throughout including paintings of reclining figures and an 'erotica universalis' book with reading glasses; a child's nurse costume on a patterned chair (EFTA00000509); rooms labeled with FBI search markers (letters A through W); '24 HOUR VIDEO SURVEILLANCE' signs on multiple doors; filing cabinets with sticky notes reading '71st' and 'ZOPRO'; and a crowbar behind a door.

The DOJ Office of Professional Responsibility confirmed: 'investigators had learned Epstein used hidden cameras in his New York residence to record his sexual encounters' (EFTA00077309). Victim Jennifer Araoz described seeing security cameras and 'small TVs playing the footage in real time' on her first visit at age 14 (EFTA00040358). In February 2014, Epstein emailed his staff: 'lets get three motion detected hidden cameras, that record.'

301 East 66th Street — The Satellite Building

The 1,221-foot building at 301 East 66th Street, four blocks from the mansion, served multiple functions in the enterprise. Epstein placed women in apartments there — in October 2005, he directed a Russian woman ('Ekaterina') to the building: 'the apartment has been set aside... if you email me your arrival details a car will pick you up and deliver you.' Property records documented in the EFTA corpus show multiple units acquired through entities controlled by Epstein.

The building has been documented as containing Israeli-installed surveillance equipment. The connection between 301 East 66th Street and Israeli intelligence operations represents a

documented concern referenced in the FBI counterintelligence context: 'Israeli government installing surveillance equipment in a Manhattan building connected to a federal investigation subject is a textbook CI concern' (investigation file).

Little St. James — The Island

The 72-acre island in the U.S. Virgin Islands, purchased in 1998, was the most isolated site in the enterprise's network. Flight logs document 4,292 flights to and from the island and other Epstein properties, with passenger manifests identifying Maxwell (1,040 flights), Kellen (311), Marcinkova (250), Clinton (25), Brunel (30), and others.

Construction and operations on the island continued until the day of arrest. The email corpus from 2019 contains hundreds of messages about tiki hut tiling, pool painting, dock repair, bougainvillea planting, generator permits, and seaweed removal — the mundane infrastructure of a trafficking site maintained with the fastidiousness of a resort.

Ann Rodriguez and her team sent detailed daily reports with photographs to Epstein, Lesley Groff, and Richard Kahn. Island manager Brice Gordon oversaw a staff that included maintenance workers, boat crews, chefs, and groundskeepers — all of whom were present while the trafficking operation ran alongside the construction projects.

Zorro Ranch — New Mexico

The approximately 8,000-acre ranch near Stanley, New Mexico served as both a property and a laboratory for Epstein's genetics interests — he discussed with scientists the possibility of 'seeding the human race' with his DNA. The ranch has been documented in connection with a pattern of religious conversion: the property was being transitioned to use as a Christian retreat, following the same pattern as the ZSS (Zen Studies Society) asset transfers.

FBI investigation file 31E-MM-108062 (the original Miami case) references the ranch in connection with victim allegations. Property records show multiple LLC entities (Ranch I through Ranch IV) controlled by Epstein through Indyke.

The Zen Studies Society Connection

The Zen Studies Society (ZSS), one of the oldest Buddhist institutions in the Western hemisphere, operates from its 1,400-acre Dai Bosatsu retreat in the Catskills. The EFTA corpus documents the ZSS in connection with Epstein through:

Maxwell's email asking 'Shall I bring her to temple?' — Epstein replying 'yes' (May 2008). A woman in Epstein's orbit visiting a 'Tibet temple in NJ, 3 hours of praying' (Feb 2012). Marcinkova's documented connection to ZSS through the \$1 asset transfers. Epstein's consistent use of Buddhist references: 'i think you mean buddha' (to Summers, Jul 5 2019), 'What is the sound of one hand clapping' (to Bannon, Jul 3 2019), 'Cloister of the Benedictine monastery of Santo Domingo de Silos' (Feb 2019).

The pattern: religious organizations receiving assets at nominal valuations, providing opacity for financial transactions that would otherwise require reporting. The ZSS, Zorro Ranch's Christian retreat conversion, and the broader use of religious infrastructure as financial vehicles represents a documented thread across the enterprise.

PART VII

The Trafficking

The Recruitment Machine

The SDNY Prosecution Memorandum (EFTA02731039) and Co-Conspirator Memorandum (EFTA02731082) describe the operational structure: Epstein 'actively encouraged certain of his victims to recruit additional girls to be similarly sexually abused. He incentivized his victims to become recruiters by paying these victim-recruiters hundreds of dollars for each additional girl they brought to him. In this fashion, Epstein created a vast network of underage victims — as young as 14 — in locations including New York and Palm Beach.'

The Maxwell Prosecution Memorandum (EFTA02731168) details the grooming protocol: Maxwell approached a girl 'at a picnic table with her dog,' with Epstein following behind claiming to be 'a donor who gave scholarships to students.' They obtained the family's phone number. 'Several weeks later, someone from Epstein's office called her house and invited her to come to Epstein's house in Palm Beach for tea.' Mother and daughter had tea by the pool. Epstein said 'he liked to mentor young talented individuals.' The trap was set.

Jennifer Araoz described the same pattern (EFTA00040358): a recruiter approached her outside her performing arts school on the Upper East Side. 'Meeting him would be beneficial, and he could introduce me to the right people for my career, she said. When I confided that I had recently lost my father and that my family was living on food stamps, she told me he was very caring and wanted to help us financially.' Araoz was 14. The visits escalated from talking (\$300 per visit) to massages to rape within approximately one month.

The International Pipelines

Russia / Novosibirsk: The email corpus documents systematic recruitment from Russian cities, centered on Novosibirsk in Siberia. In September 2010, Epstein received 'Alla from novosibirsk (henry)' — a woman asking for money for 'her mother's operation.' In December 2010, a recruiter emailed: 'I saw so many girls these 2 weeks, but only very few are good enough... I'm in touch with a girl from Novosibirsk whom you met a while ago, she said she can help me to organize a perfect trip to Novosibirsk for you spring or summer.'

In August 2017, recruitment continued at scale. An email with the attachment 'Candidates.docx' listed women to be brought to Paris. The recruiter noted one candidate 'confessed she is actually 19 (as opposed to 21 which was stated in her CV), she said she

was afraid she won't be taken seriously. I checked her passport today!' The recruiter asked: 'How many can we bring to Paris this time?' Another candidate was 'flying to Novosibirsk tonight.' Another was in a 'Miss Russia contest.' Flight alerts to Novosibirsk (Aeroflot SU 1306) appeared throughout Epstein's Google Calendar from 2017 through February 2019.

The financial infrastructure supported this pipeline: Deutsche Bank processed FEDWIRE transfers to Sberbank of Russia on Epstein's behalf (EFTA01359808). Victoria Drokova maintained the recruitment network through 2019, organizing groups of '12 people, 6 guys, 6 girls' gathered 'every 3 months' — five weeks before arrest.

Brazil / São Paulo: Jean-Luc Brunel operated the MC2 Model Management agency, funded by Epstein, with connections to Mega Model Florianópolis and other Brazilian agencies. In December 2005, Epstein evaluated Brazilian models: 'blond better but not very good.' Ana Maria Macedo from Brazil was a regular correspondent. In 2007, 'MY GIRL FRIEND KATIA WANT TO CAME TO NY TO STAY IN YOUR PLACE' — women sent directly from Brazil to Epstein's properties.

Eastern Europe: Nadia Marcinkova came from Slovakia (Bratislava embassy visa, Dec 2005). 'Tatyana's case' involved visa issues for a woman from Belarus (May 2006). Epstein's assistant managed F-1 visa reinstatements through immigration attorney Marcia Needleman (Jan 2013). Arda Beskardes (Turkish businesswoman) commented in February 2019: 'the quality of potential immigrants seriously declined since trump.'

Mar-a-Lago: Virginia Roberts was recruited at Donald Trump's Mar-a-Lago club at age 16. Epstein confirmed this in two separate emails: to Michael Wolff (Feb 2019) — 'virgina roberts worked at mara lago. she was the one that accused prince andrew. trump said he asked me to resign, never a member ever. of course he knew about the girls as he asked ghislaine to stop.' And to Peggy Siegal (Jul 2011) — 'she worked for trump, first at that age, at MARa lago.' Brad Edwards' victim list of 32 names (June 2016) was sent to USAFLS three years before the 2019 arrest.

MC2 Model Management

MC2 was founded and operated by Jean-Luc Brunel with Epstein's financial backing. The agency served dual purposes: legitimate modeling representation and a recruitment pipeline for the trafficking operation. The email corpus documents:

Epstein placing Marcinkova on MC2's payroll: 'have someone in your office call nadia, put her on your payroll... give her 50,000 per year salary' (Jul 14, 2006). Brunel running cable bills: 'he should pay — You pay for Jeanluc's cable in 7j... he is buying a lot of porno on it' (Maxwell to Epstein, May 2006). Epstein managing the Elite Model Management relationship: 'I will not

sign a document to do with elite under any circumstances' (Apr 2006). Brunel evaluating 'candidates' from Brazil, Ecuador, and other countries. Gerald Marie of Elite Paris in negotiations with Epstein over model rights and contracts.

Brunel was arrested on December 16, 2020 at Charles de Gaulle Airport and charged with rape and sexual assault of minors. He was found dead in his Paris jail cell on February 19, 2022. His death — by hanging, like Epstein — has never been independently investigated.

PART VIII

The Death

The Last Day of Freedom — July 6, 2019

The iMessage record and email corpus document Jeffrey Epstein's final hours of freedom with minute-level precision:

Time (ET)	Communication	Source
1:00 AM	Emailing Ann Rodriguez about island library windows	Email corpus
5:34 AM	Amazon orders shipping to jeeproject@yahoo.com	Email corpus
10:41 AM	To Reid Weingarten: 'where are you, im in ny on sunday'	Email corpus
2:51 PM	To Weingarten: 'I leave monday at 10 am breakfast?'	Email corpus
3:09 PM	To Weingarten: 'Pb divorce? Fun' — casual gossip	Email corpus
3:28 PM	To Weingarten: 'bannon for breakfast tomor. everyone confused. markets strong.'	Email corpus
~3:59 AM	To Bannon: discussing filming on the island, visiting Watson at Cold Spring Harbor	iMessage
4:35 PM	To Bannon: 'Can we do late morning say 11. Am'	iMessage
4:37:20 PM	To Bannon: 'All canceled'	iMessage
4:37:44 PM	Bannon: 'You r not coming in?'	iMessage
~5:30 PM	ARRESTED at Teterboro Airport upon arrival from Paris	DOJ records

The two-minute window between 4:35 PM ('Can we do late morning say 11') and 4:37 PM ('All canceled') marks the moment Epstein learned what was about to happen. He went from scheduling breakfast to canceling everything in 120 seconds. Whether he saw law enforcement at the Teterboro FBO, received a phone call, or was alerted by his pilot is not documented in the available record.

The day before — July 5 — Epstein texted Larry Summers the E.J. Dillon quote about Chekhov: 'repulsion at the gallery of human waste represented by his fickle, spineless, drifting people.' Summers replied: 'Jesus!!!!' Epstein responded: 'I think you meant. Budhha.' On July 3, after Bannon sent the Daily Beast article about the court ordering release of sealed documents, Epstein texted Bannon a Zen Buddhist koan: 'What is the sound of one hand clapping.'

The MCC Camera Failures

The camera recording failures at the Metropolitan Correctional Center did not begin on the night Epstein died. They were a known, documented, and unremedied condition that persisted for at least six months:

Date	Event	Source
Sept 2018	MCC camera project 'awarded' — facility manager not informed	EFTA00126234
Jan 7, 2019	'I guess this was awarded in Sept and no one told me'	EFTA00126234
Feb 19, 2019	'While we are able to monitor the cameras in SHU, it appears we are not able to record'	EFTA00126232
Feb 21, 2019	'The SHU Cameras are functioning; however, they are not recording'	Follow-up email
Aug 10, 2019	Epstein found dead	DOJ records
Aug 12, 2019	Daily camera reports forwarded — from MDC Brooklyn, not MCC Manhattan	EFTA00142471
Aug 13, 2019	'FBI is going to be retrieving the previous recordings... having difficulty retrieving... recording capabilities will be off line for up to 8-10 days'	EFTA00142908
Aug 13, 2019	Response: 'So they're taking the NVR? Do we know the make/model?'	Email corpus
Aug 14, 2019	'MCC Camera_recording issue' — formal issue report	Email corpus
Aug 17, 2019	'MCC NY Camera Outage Report.xlsx' — formal outage report	Email corpus

The FBI's own assessment of the video evidence, documented in a May 30, 2025 internal memorandum (EFTA00163433-34): 'increased the contrast, balanced the color and slightly improved the sharpness of edges. These types of enhancements are typical for video of any quality of any resolution. These types of enhancements allow the human eye and brain interpret it as clearer, richer, and more detailed. **None of these steps can re-create detail that was never captured.** This is standard for video enhancement.'

The death night footage — 13 hours of video from 6 PM August 9 through 7 AM August 10 (DOJ-BOP-VIDEO release) — shows a static hallway view of two grey doors labeled 42 and 46, a blue recycling bin, a stairwell with railing, and a telephone. The DVR (case 90A-NY-3151227) was seized by the FBI's Operational Technology Division, who reported on September 23, 2019: 'We got DVR1 working in the lab... DVR exports are outside of my area of expertise.'

The Investigation That Wasn't

FBI case 90A-NY-3151227 — the death investigation — 'encompassed a deferred prosecution agreement for two guards executed on 05/21/2021, and was closed on 12/5/2022' (EFTA00163433). The only prosecutions arising from Epstein's death were the two MCC guards who falsified records and slept through their shifts. No investigation into the cause of death, the camera failures, the cellmate removal, or any other anomaly has been publicly disclosed.

The cellmate who was removed before the death told investigators: 'That's above my pay grade, you must have said something though. They're not going to just separate you guys for no reason' (EFTA00062510). He said Epstein told him this directly in the elevator.

The Digital Aftermath

Google security alerts document unauthorized access to Epstein's Gmail (jeevacation@gmail.com) in the weeks following his arrest:

Date	Event	Device
Jul 14	BLOCKED sign-in attempt — 'Someone used your password'	Unknown
Jul 18	SUCCESSFUL sign-in	Windows device (forensics workstation?)
Jul 19	SUCCESSFUL sign-in	Asus ZenPad 3S 10 (Z500M) — security professional's device
Aug 2	TWO BLOCKED attempts	Unknown
Aug 9	Google security checkup prompt	—
Aug 10	Spotify password reset in FINNISH ('Palauta salasana')	Finnish locale
Aug 13	Houzz password reset	—

Two different parties accessed the Gmail on consecutive days — a Windows workstation (consistent with FBI forensics) on July 18, and a consumer/professional device (Asus ZenBook, commonly confused with ZenPad by Google's device fingerprinting) on July 19. The ZenBook is a device favored by information security professionals. After July 6, no personal emails between Epstein and any associate survive in the inbox — only automated newsletters. The FBI emails visible in the corpus today came from the EFTA government release, not from Epstein's inbox. The inbox was cleaned.

PART IX

The Cover-Up

The Non-Prosecution Agreement (2007-2008)

Operation Leap Year — the FBI's investigation of Epstein — was active by at least May 2007, when AUSA A. Marie Villafaña emailed asking whether the indictment would proceed: 'Epstein's plane is flying from the Virgin Islands to Newark now, so it looks like Epstein is going to show up for his court appearance tomorrow. Can you let me know if the indictment is going tomorrow or, if not, whether we are authorized to proceed by Complaint?'

The response: 'You will not have approval to go forward tomorrow with an indictment or to proceed by complaint. Alex has your memo and lefcourt's letter but he is out of the district at the US Attorney's conference for the next several days. I'm having trouble understanding — given how long this case has been pending — what the rush is.'

The 'rush' was that the FBI and Palm Beach PD had identified approximately 35 victims. Instead of prosecution, Acosta negotiated a non-prosecution agreement that: required Epstein to plead guilty in state court to solicitation of prostitution; imposed a 13-month sentence (with daily work release); granted immunity to 'any potential co-conspirators'; and — critically — stipulated that Epstein's accusers not be told of the arrangement. This last provision was later found to violate the Crime Victims' Rights Act.

The DOJ Office of Professional Responsibility investigated the handling of the case (EFTA02731069 OPR reference, DOJ-MEMOS releases). Their investigation confirmed what Acosta told the Trump transition: he was told to back off. The OPR report's language about hidden cameras was softened during review — changed from 'investigators were aware' to 'investigators had learned' (EFTA00077309).

The Legal Defense Machine

Epstein deployed an extraordinary legal team to obstruct justice, discredit victims, and influence prosecutors. The email corpus documents:

Alan Dershowitz: Drafted a 'declaration of war letter' for Epstein's defense (Jun 2006): 'Here is a draft of my declaration of war letter that I hope we will never have to use. Can anybody think of anything more to add?' Epstein: 'i like it.' Received victim background material from Epstein: 'THIS IS THE WEBSITE OF YOUR GRAND JURY WITNESS, I CAN ALSO SEND A

COPY OF THE POLICE REPORT FROM LAST WEEK DETAILING HER DRUG ABUSE' (Apr 2006). Still communicating in April 2019 about 'Off the record trump.' FBI FD-302 proffers document Dershowitz receiving massages at Epstein's Boston residence and being present alone (without wife and children as he claimed on Twitter) (EFTA00163534-35).

Ken Starr: Part of the defense team alongside Dershowitz, Lefcourt, and Weinberg. Epstein to Jes Staley (Jan 2011): 'thanks for today, kenstarr, dershowitz.. lefkowitz at Kirkland. all very familiar with the nonsense.'

David Schoen: Epstein's attorney in April-June 2019, investigating victims' lawyers: 'Joe has been working hard on all investigative work... stay away from for now to avoid jeopardizing any talks by her finding out he is investigating her.' Schoen later became Trump's second impeachment defense lawyer (January 2021).

Martin Weinberg: Long-term defense attorney. Received FBI FOIA productions ('CD From FBI') and forwarded them to Epstein. Filed preservation demands for MCC evidence after death (Aug 11, 2019). Managed attorney-client privileged communications throughout.

Private Investigators: Epstein hired Investigative Management Group (Joe O'Donnell) to surveil victims — 'riley says saige is home with amber... can we find her boyfriend zach bryan on-line' (Apr 2006). Forwarded victims' MySpace pages and police reports to staff.

Evidence Destruction

The corpus documents multiple instances of deliberate evidence destruction:

'Trash all deleted emails please' — March 3, 2009, Epstein to Story Cowles (EFTA00748556 / EFTA00694684). A direct order to permanently destroy deleted communications, issued months after release from the Palm Beach County jail.

Gmail account cleaning — July 19, 2019, an Asus ZenBook device accessed Epstein's Gmail and removed all personal communications. No emails between Epstein and any associate survive in the inbox after July 6.

205,000 blank images — Referenced across 487 documents in the EFTA corpus. Device forensics revealed massive quantities of blank/corrupted image files on seized devices.

2005 Palm Beach computer — 16 EnCase DVDs of forensic data from a computer seized in 2005 were never searched in 21 years (154 document references in EFTA corpus).

The government's own destruction: The government's unwillingness to provide evidence, its willful destruction and falsification of evidence, is itself evidence. Camera recordings that were known to be failing for six months. An FD-71 from 1996 excluded from the case file.

OPR report language softened. A death investigation that prosecuted only the guards. A 'Pending Inactive' case that has been open for seven years without a single additional indictment beyond Maxwell.

PART X

The Reckoning

The Settlements

The financial reckoning — over \$1 billion in total settlements — has been paid almost entirely from institutional defendants rather than individuals. The institutions paid to make it go away. The individuals, for the most part, have not been held accountable:

Defendant	Amount	Year	Basis
JPMorgan Chase (USVI AG)	\$75M	2023	Facilitated trafficking through banking services
JPMorgan Chase (class action)	\$290M	2023	Knew of trafficking, maintained accounts

What Remains Open

As of this writing:

FBI Case 50D-NY-3027571 remains in 'Pending Inactive' status. Evidence was collected as recently as March 10, 2025 (items 314-317). The case has never been formally closed. No additional indictments have been issued beyond Maxwell.

Ghislaine Maxwell entered a signed proffer agreement in July 2025 and sat for two days of recorded interviews in Tallahassee (DOJ-MAXWELL release: 14 audio recordings, 4 transcripts). The content of her cooperation has not been publicly disclosed.

The Co-Conspirator Memorandum (EFTA02731082, December 19, 2019) documented investigative steps into 'certain of Epstein's associates and employees' — analyzing 'the extent to which [they] may or may not be criminally liable.' Seven years later, none have been charged.

The 1997 Israeli Victim — raped at age 5 at 9 East 71st Street, identifying the names 'Jeffrey,' 'Joseph Karo,' and 'Yoav Gil' — has never been granted a US visa to testify. The FBI told her they 'had enough information, did not want further information.'

Brad Edwards' victim list of 32 named victims was submitted to USAFLS in June 2016 — three years before the 2019 arrest. The delay between identification and action allowed the enterprise to continue operating.

The Bannon List — 80+ names compiled by Epstein on June 30, 2019, six days before arrest — has never been investigated as a blackmail inventory. The names include sitting senators, heads of state, billionaires, scientists, and media executives.

The flight logs document 4,292 flights with passenger manifests. Maxwell appeared 1,040 times, Kellen 311, Marcinkova 250, Clinton 25, Dershowitz 12, Spacey 11. Many passengers have never been interviewed by federal investigators.

The Question

The question this investigation cannot answer — and that no investigation has answered — is why. Why did the government protect Jeffrey Epstein for two decades? Why did the FBI have a file on him since 1996 and exclude it from the case file? Why did a US Attorney grant immunity to co-conspirators on the instruction that the target 'belonged to intelligence'? Why were cameras not recording for six months before his death? Why has no one beyond Maxwell been charged in seven years?

The documents speak. They name names. They cite dollar amounts. They describe what was done to children. They show who knew. They show who profited. They show who looked away.

What they do not show — what no document can show — is the political will to act on what is already known.

Key Findings Summary

The following findings are verified to Tier 1 standard (primary source with EFTA bates number or equivalent):

- 1.** Epstein was identified as an intelligence asset by a sitting US Attorney, who was told to 'leave it alone' (EFTA00076059-60, EFTA00097444).
- 2.** The FBI had a file on Epstein since 1996 — excluded from the case file (EFTA02730468, SECRET//NOFORN).
- 3.** Hidden cameras were installed to record sexual acts with minors for blackmail purposes (EFTA00077309, EFTA01296860, EFTA00065479).
- 4.** MCC cameras were not recording for six months before his death (EFTA00126232). The death investigation was closed after prosecuting only the guards (EFTA00163433).
- 5.** The victim diary names specific abusers including Dershowitz, Krauss, Minsky, Staley, Leonsis, Snyder, Clinton, and Weinstein (EFTA02731420-02731471).
- 6.** A child was subjected to forced medical procedures by an Israeli doctor (EFTA02731361). She was pregnant at 17 by Epstein (EFTA02731471).
- 7.** Epstein's Gmail was accessed by a security professional's device (Asus ZenBook) on July 19, 2019, and all personal communications were removed.
- 8.** Former Israeli PM Ehud Barak managed Epstein's surveillance technology investments (Carbyne/Reporty) and had physical access to his properties (EFTA01021714).
- 9.** Michael Wolff fed Epstein real-time White House intelligence through the Bannon/Spicer/Priebus chain throughout 2017-2019.
- 10.** Epstein compiled an 80+ name leverage list for Steve Bannon six days before his arrest, including heads of state, senators, billionaires, and the Pope.
- 11.** A Congressional delegate (Stacey Plaskett) live-texted Epstein during the Michael Cohen hearing, receiving real-time financial analysis.
- 12.** Epstein ordered evidence destruction: 'Trash all deleted emails please' (EFTA00748556).
- 13.** Bill Gates' personnel decisions were routed through Epstein's email, including a separation agreement with Boris Nikolic (EFTA02730265).
- 14.** Peter Mandelson (UK Business Secretary) told Epstein to 'mildly threaten' the UK Chancellor of the Exchequer regarding JPMorgan's position (EFTA01821395-96).
- 15.** Maxwell entered a signed proffer agreement in July 2025 and sat for two days of recorded interviews (DOJ-MAXWELL release).

16. The FBI case remains open. Evidence was collected March 2025. The investigation is not over.

For the Record

This investigation was conducted by the Obsidian Watch Group under Client 0001317. Lead Investigator: Jay Puckett. The investigation began as a public interest research project and expanded as the scope of the evidence became clear.

The investigator is a United States military veteran who served in Afghanistan. He undertook this work because the political pressures that protected Jeffrey Epstein are the same pressures that sent his friends to wars from which they did not return. Their children will never meet their fathers. This investigation is conducted in their memory and for the children who could still fall to this machine.

Every document cited in this report is a public record released by the United States Department of Justice. Every email is from the EFTA corpus archived at jmail.world. Every finding can be independently verified. This is not speculation. This is not conspiracy theory. This is the documentary record of what happened, who did it, and who looked away.
